

Invention Disclosure

This document is intended merely as a guide to the information an invention disclosure should contain. Please check whether your company requires the use of a specific form and to which office the invention disclosure is to be submitted. This template does not constitute legal advice and is provided for information purposes only.

1 Invention

1.1 Title of the invention

--

1.2 Core of the invention (brief description of the inventive idea)

--

1.3 Prior art (What is already known? What problems arise?)

--

1.4 Description of the invention (How does the invention solve these problems?)

--

1.5 Technical advantages of the invention over the prior art

2 Origin of the invention

2.1 Is the invention connected with your professional activities?

2.2 In the course of which project did the invention arise?

3 Disclosure of the invention

3.1 Has the invention been presented to the public? If so: when/how/where?

3.2 Is a (further) disclosure of the invention planned? If so: when/how/where?

4 Inventor details

4.1 Number of inventors

--

4.2 Personal details

	Inventor 1	Inventor 2
Gender		
Title, first name, surname		
Address		
Nationality		
Employment relationship at the time of the invention		
Share in the invention (%)		
Date, signature		

Note: Extend this table to include further inventors if required.
